## Claresholm Local News

Howard Long was a patient in the local hospital this week.

Rev. M. Hillerd is on the sick list this week, with heart trouble.

Mrs. Susan Narkus, of Granum, is a Claresholm hospital patient at present.

Mrs. Thor. Brown and little daughter Helen are patients in the local hospital.

Miss Annie McDonald, of Calgary, is a guest at the home of her brother R. S. McDonald.

The Junior Hockey boys defeated the Agricultural College team 2-0 on Thursday evening.

Wm. Seefried, who has employment with Alf. Lewis, was a local hospital patient this week.

Mrs. R. G. Free was able to leave the hospital here and return to her home in Staveland on Thursday.

Colin Rogers, a student at the School of Agriculture, was a patient in the local hospital this week.

Madeline, little daughter of Mr. and Mrs. Gilbert Schumacher, is a patient in the local hospital this week.

Notwithstanding the unfavorable weather, some threshing has been done in parts of this district during the week.

An all ladies' bonspiel started at the curling rink today. It is off to a good start and some exciting games are anticipated.

Mr. and Mrs. Fred Anderson announce the marriage of their daughter Mabel to Arthur Twetten. They will make their home in Calgary, 130 Fifth Ave. East.

Foot Hill Lodge No. 13, I. O. O. F., will confer the second degree next Monday evening. All members are requested to be present at 7 o'clock sharp.

A novelty bonspiel has been in progress here this week, with ladies and men on each rink. At the time of writing the play is narrowing down toward the finals.

An informal smoker will be held in the club room on Friday evening, March 2nd, for members and ex-members of the Claresholm Branch Canadian Legion B. E. S. L.

A St. Patrick's concert and dance will be held in the L.O.O.F. hall on Friday night March 16th, under the auspices of the Catholic Women's League. Watch for further announcement next week.

A case of scarlet fever has developed here, the three year old daughter of Mr. and Mrs. E. J. Loxton being the sufferer. The germs were carried by a letter recently received from the States.

Rev. C. E. Thomson, District Superintendent of the Church of the Nazarene, will preach in the local Nazarene Mission this Saturday evening, Feb. 25, at 7:30 o'clock. You are invited to come and bring a friend with you.

The road travelling contractors state that they expect to complete the ungravelled stretches between Macleod and Nanton by the end of March. Our opinion is that they will have to put on more speed than they have been showing if they make it.

A general meeting of the Claresholm Board of Trade has been called for next Monday evening, in the I. O. O. F. hall. Business: To schedule memberships; to complete organization; to arrange a program of future activities; and to discuss general business.

"Ben-Hur" is drawing good houses at the Rex theater. It is undeniably a stupendous picture, and everybody will want to see it. When this picture was shown at High River about 300 Calgary people who had been unable to see it when shown at Calgary, made the trip to High River to see it. The last showing here will be on Saturday, afternoon and evening.

The Catholic Women's League will hold their postponed Valentine's tea and sale of home cooking on this Saturday, February 25th, in the I. O. O. F. hall.

Miss Boniface entertained at whist on Tuesday evening. There were five tables in play. Mrs. J. E. Amundsen was winner of the ladies' prize, and Oliver Mosley won the gentlemen's prize.

In lieu of their Valentine dance which had to be called off owing to board of health regulations, the Elks will give a leap year dance on Wednesday night, February 29, in the I. O. O. F. hall. All the trimmings will go with it that had been arranged for the previous occasion.

An exhibition game of hockey between Granum and Claresholm was played here on Wednesday evening, resulting in a victory for Granum, with the score at 13-1. On Claresholm's part it seems to have been an exhibition of how not to play hockey. There was a good attendance.

After three weeks of springlike weather, this week brought a return of winter, with minimum temperatures below zero for three days. The coldest of the week was Wednesday morning when the thermometer marked 18 below. Snow fell on Sunday and on Tuesday, the snowfall being approximately two inches at this place.

Major Schoof, who is now lecturing in Texas, writes the Review a vivid description of a burning oil well near his oil lands at Bayside. He says that at night it lights up the country for miles around as light as day. The San Antonio Daily Light of Feb. 14 gives the Major and his lectures a big writeup, an excellent photograph accompanying.

The Georgian Singers and Players have been booked to appear at the Rex theater on Wednesday night, March 7th. The personnel of the company: David Morgan, Welter; Louis Phillips, Scottish soprano; Josephine Wood, contralto; John Edmondson, baritone; Eileen Robertson, pianist. Booking under the Catherine Reid Concert Bureau, Vancouver. Further announcement next week.

## SCHOOL BOARD MEETING

The initial meeting of the 1928 school board was held on Wednesday evening. The newly elected members were duly sworn. Trustee Mack was chosen chairman. Trustee Amundsen was appointed secretary for 1928 at a salary of \$150.00.

Motion was passed that the regular meetings of the board be held in the council chamber on the second Monday of each month.

Accounts to the amount of \$1,899.34 were passed for payment.

Motion was carried that the chairman and secretary be authorized to sign a contract with Ruby School District to educate their pupils for \$750.00 per annum Ruby School District to furnish their own conveyance.

The estimates for 1928 were passed, amounting to \$23,525.00, made up as follows: Teachers \$16,000.00, Janitor \$1,600.00, Secretary \$150.00, Debitures \$1,900. Insurance \$475.00, Interest \$300.00, Fuel \$1,400.00, Supplies \$800.00, Repairs \$500.00, Trees \$100.00, Sundries \$300.00. Of this amount government grants are estimated to cover \$3,000.00, cash on hand \$1,500.00, Ruby School District payment \$750.00, sundry collections \$250.00, leaving the amount of the requisition on the town \$18,000.00.

## WHATEVER THE LOAF

we turn out in this bake shop, it is the very best of its kind. White flour bread, graham or whole wheat, raisin bread, French or twist loaf, or rolls—our product is pure and wholesome.

## ANSWERS TO LAST WEEK'S QUESTIONS

386. How They Travel in Winter in Alaska on Northern Canada?

The far north is a land of magnificent distance, with cabins, villages and cities 30 to 50 miles apart. Winter closes down in November and holds everything in a chilly grip until June. These long distances are too much to attempt on snowshoes or sleds, so throughout Northland man's main reliance for winter transportation is the ever-faithful dog. Until Alaska is covered by a network of railroads the dog "musher" and his dogs will be indispensable on the wind- and storm-swept trails. Without the co-operation of man's best friend, the dog, northern Alaska would exist only as a number of widely scattered hermitages.

387. How Far Can a Dog Team Travel?

In eastern Siberia, where near neighbors are 100 miles apart, they have developed a breed with more stamina than any other domesticated beast—dogs able to maintain a 150-mile run at a clip—sixty-four hours, and endowed with great strength and intelligence. These animals are being imported into Alaska in large numbers. The regular 40-mile run roadhouse to roadhouse is an easy task for a team of these Siberians; they can carry the traveler to the second or even the third one in a day, if need be. Speed is essential, for frigid gales have a way of coming up almost without warning—sudden sheltered the better.

388. Some Speed Records of Dog Teams?

Speed of Siberian sled-dogs is remarkable, his endurance marvelous. In the All-Alaska Sweepstakes races over 400 miles round trip from Nome (on Bering Sea) to Candle (on Arctic Ocean), one of the bleakest regions of the north, they hold the record—71 hours 14 minutes 22 seconds elapsed time, with actual running speed for entire distance more than 10 miles an hour. In shorter races they have averaged more than 18 miles. Leonard Seppala, the Norseman, with his team of 9 Siberians, including his peerless leader, "Togo," "mushed" over the most dangerous stage of the route in the noted 600-mile race with antitoxin Nenana to Nome several years ago.

389. What Is a Blizzard?

A furious gale, zero cold, air filled with fine, hard, cutting, blinding snow; most parts of the country never experience one. First appear on Great Plains of Canada east of Rockies and pass into the U. S. through eastern Montana, North Dakota and Minnesota; rarely pass east of region of Great Lakes unless ground has continuous covering of snow. Very destructive to unprotected live stock and dangerous to human beings; the fire, driving snow crystals fill the air and prevent the traveler seeing his way, he becomes confused, and may perish even within calling distance of his own home more than 100 persons perished in the great blizzard of 1888.

## 390. What Is a Sleet Storm?

A cold-weather rainstorm in which the falling water turns to an ice coating on striking terrestrial objects when temperature of lower air is below freezing. An ice storm of first magnitude is one of the most beautiful sights in nature; sometimes one of the most destructive, if high winds develop after ice is deposited. Like the blizzard and tornado, is a specialty of American climate; seldom occurs in Continental Europe, practically unknown in British Isles. New England is especially subject to these storms; somewhat less common throughout a broad central belt extending from Atlantic to Upper Mississippi Valley.

## 391. Greatest Ice Storm?

One of the most spectacular and destructive was "The Great Ice Storm" of 1921 in New York and New England; lasted three days with strong northeast gale. Streets became dangerous—trees, electric wires and poles falling everywhere; electric light, trolley and telegraph service gone; ice two inches on wires; weight of tree branches increased 30-fold by ice coating; estimated 50-ft. tree with spread of 20 feet carried 5 tons of ice; 100,000 trees wrecked beyond recovery, entire orchards destroyed; telephone poles fell a mile at a stretch; forest trees lay prostrate in windrows, sound of their breaking like continuous gunfire.

## 392. How an Ice Storm Affects Public Utilities?

Their greatest disaster was the great ice storm of December 1924 embracing territory approximately 150 miles wide, Texas to Great Lakes. In Texas, Oklahoma and Missouri 34,000 poles were leveled, 25,000 miles open telephone wire out of commission; in Illinois, Western Union lost 8,000 poles, Bell Co. 23,000; trains stopped running because no signals to guide them. Radio and underground cables are invulnerable to ice attack; electric power companies send heating currents through their wires; electric railways use trolleys propped with a cutting edge, or keep third rail free by spraying it with solution of calcium chloride.

## Clear Lake Nominations

Stavely, Feb. 18.—Nominations for the councilors in the municipal district of Clear Lake held today as follows: Division 1, C. P. Hay, Norman Lamb; Division 2, Stanley Carey, acclamation; Division 3, John Funk, A. Nordlund. Councilors for Divisions 4, 5 and 6 hold office for another year. Elections in Divisions 1 and 3 will be held on February 25.

## POSITION WANTED

Young man would like farm work from end of March till harvest. Please state wages, etc. Apply at Review office.

## Foolish Saving

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising loses much more than he saves.

The money spent for plate glass windows is not looked on as lost; nor is the money spent on better interior lighting.

Anything that increases the favor, that adds sales, that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising sells more goods to more persons than shop windows do.

## A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary, is not your impulse to respond to his friendly overtures?

## Cattle Trade With Britain Ceases

Representative of British Ministry of Agriculture Leaving for Argentina

Through the cessation of cattle shipments to Great Britain, owing to the fact that a more liberal trade is available in the United States, Dr. D. B. Rodger, M.R.C.V.S., representative in this Dominion of the British ministry of agriculture, will leave Montreal in the near future, and sail from New York for the Argentine.

In commenting on his prospective departure, Dr. Rodger pointed out that the cattle trade between Canada and the United Kingdom is, temporarily dead and that he can serve no useful purpose by remaining in this country under such conditions.

In the departure of this official, the precarious position of the cattle market is clearly shown. Not a hoof left Montreal last season for the United Kingdom, though 19 head of cattle were shipped to the West Indies. This compares with shipments of 30,670 head in 1926, and with 53,481 head in 1925. Although rates of transportation across the Atlantic dropped \$25 to \$20 a head at the beginning of the season, it was not so successful in inducing exporters to ship cattle to Great Britain. Shipping men say that it is improbable that any animals would be sent abroad even if they offered to take the cattle for nothing, in connection with the small shipment of cattle to the West Indies last year. It is made of the possibility of developing an export trade in Canada pure bred and grade cattle.

## Really Going Somewhere

Men Taking Job With That Idea Bound To Succeed

Everybody has heard of the Standard Oil Company, of New Jersey, rich and powerful. It is known throughout the world. The biggest thing about it is its manpower, under the leadership of able executives. But the thing that is generally known is that nearly all the leading executives of this company came from the ranks. One was a boy carrier. Another started to work for the Standard when he was 14—in the factory that made handles for the canisters. Another was a bookkeeper. So many bookkeepers think they toil in vain, with nothing ahead of them. The vice president of the company began as an office boy.

The young man who gets started somewhere in this world is the young man who feels when he takes a job that he is really going somewhere.

## Manitoba Mining Industry

Over 600 Men Now Employed Continuously in Mining Work

The number of men employed in Manitoba's mining industry more than doubled during the last year, according to figures recently issued. There are now more than 600 men employed continuously in the various mines of Central and Northern Manitoba, as compared with 250 at this time last year. This does not include the large number on railway or other construction work.

## Aid To Speech Making

When Mr. Augustine Birrell goes speech-making he must have in the left-hand pocket of his trousers a quantity of coppers and a bunch of keys. While speaking he fumbles with the collection. If by mistake the keys and the coppers are left at home, the speech is not so good as the speaker would like it to be. All this was told by Mr. Birrell himself.

A young man isn't necessarily musical because he makes overtures to his sweetheart.

Abraham Lincoln was 6 feet 4 inches tall.

"My suit gave me a lot of trouble during my illness, but I am quite happy now."

"Has she recovered?"

"No. She is dead!"—Montague, Chatterbox.

W. N. 17 1718

## WHAT CAUSES A CHINOOK

Scientists Agree With Explanation Of Sir Frederick Stupart

Sir Frederick Stupart, chief of the meteorological department at Ottawa, gives a simple explanation of the Chinook. Winter conditions in Southern Alberta would be in the natural order of events be similar to those of Saskatchewan and Manitoba were it not for two factors. We would have constant, through the winter season, a low pressure area, with consequent cold but for the warm winds from the Pacific South and the passes to the West of us through the Rocky Mountains.

Sir Frederick Stupart explains that the warm Pacific winds flow regularly in a northeasterly direction and when they are strong enough to force their way through the Rocky Mountains passes they create a high pressure area, which meets the low pressure area from the north.

By reason of difference of pressure the warm winds force themselves under the low pressure area on this side of the mountain, and we have the Chinook.

The heat the change happens frequently throughout the year, but the contrast is naturally more noticeable in the very cold winter. In the winter the Chinook is appreciated by everyone except the gas company and the coal men. Its effect in the summer is not so acceptable. The same authority explains that the meteorological word that transforms a countryside covered with several feet of snow into a territory streaked with rivulets of water can be blamed for occasional crop losses in the growing season. The Chinook flows in and dries up the land taking from the growing crops the moisture of which they stand in need.

There are various explanations of the Chinook as there is of aurora, borealis, but there is much scientific agreement with the explanation of it that is made by the chief of the Canadian meteorological bureau—Calgary Herald.

## Prince Is Power User

The Prince of Wales' new home near Nottingham, England, will shortly be the wonder electric farm of the Old Country. More than a hundred lights are being placed in the new cow houses, barns, granaries and farm house, and a remarkably clever system of watering, which is actually worked by the cows and other animals themselves, is being installed. Tanks are filled by an electric pump with 6,000 gallons of water.

If you would please a woman give her what she wants rather than what she needs.

## Has Faith In Bay Road

Hon. Chas. Dunning Says Road Will Justify Itself In Development Of North

The next 25 years will witness a broadening of the band of population across Canada, with the consequent need for material and industrial developments. Hon. C. A. Dunning, Minister of Railways and Canals, prophesied in an address before the Montreal Canadian Club.

Mr. Dunning reviewed progress in the northern areas of Ontario, Quebec, Manitoba and in the Peace River area.

"I spoke of the vision of the north," he continued. "May I say in that connection that not one single railway line yet built into Northern Canada is failing to justify itself!" After adding that many of these projects had been faced by prophecies of financial disaster, Mr. Dunning made reference to the Hudson Bay Railway.

"I won't take time on this occasion," he said, "to give you a speech on the Hudson Bay Railway, but I will pledge myself that the Hudson Bay Railway will amply justify itself in the development of the resources through which it travels."

## Western Canada Wool

Enquiries Received From Japan For Alberta Products

Enquiries have been received by the department of Agriculture from an importing firm in Kobe, Japan, for quotation on shipments of large quantities of Alberta wool. Tribute is paid to the high quality of wool from Western Canada and the hope is expressed that this product may be utilized in supplying large contracts for the Japanese Government. Recently Captain Kawakami of Japan, visited Alberta investigating into the possibility of shipping dairy and beef cattle, horses and swine, from his native land to meet the steadily growing demand from the Orient.

Visitor: What is your little brother's name?

Tommy: His name would be Bill if he was my brother, but he isn't, so his name's Alice.

A bachelor is a fellow who gets only half as much mileage as a married man out of a pair of socks.

Visitor: "Do you work here?"

No, madam; I'm the manager."

## NAVIGATION IN THE YUKON

Ships Helped Over Five Finger Rapids By Cable

The Yukon River is navigable for large steamers from its mouth to Whitehorse, Yukon Territory, Canada, a distance of about 2,000 miles. The only obstruction to navigation which steamers cannot overcome with their own power at all stages of water is at the Five Finger Rapids, so-called from five rocks which stand up out of the water like the finger tips of some giant hand.

No difficulty is experienced at these rapids during the greater part of the season, but at the period of extreme high water the fall at one point is just sufficient to lift the big stern wheel of an up-bow-down steamer for a few seconds out of the water. That brief space of time is sufficient for a ship to lose headway and be carried down stream. To overcome this, when steam navigation was first undertaken on the river an improvement was made by which a steel cable was attached to suitable anchorages in rocks above and below the rapids, and the cable itself allowed to lie slack in the water, when steamers loaded up stream reach the foot of the rapids the cable is taken on board and looped around a steam-driven capstan. As fast as the steamer pulls herself up river the slack or lower end of the cable is paid out overboard into the water again. Where the critical point in the rapids is passed the cable is cast off into the river bed, where it is immediately available for the next steamer bound up stream.

Registered Seed For Russia

Order Comes From Leningrad For Saskatchewan Seed Grain

From Leningrad, Russia, a rush order for registered seed has been received by M. P. Tullis, manager of the Saskatchewan Seed Growers, Ltd. The order is the result of a visit to the Moose Jaw plant by Dr. Victor Talanoff, chief of the plant introduction and variety testing branch of the Institute of Applied Botany, Leningrad.

## Watching New Law

Minnesota is the first state in the Union to put into effect a traffic code containing a provision making it an offence to stand by the roadside and solicit a ride in an automobile. The new law is being watched with interest by motorists and civic authorities throughout the country, since it may prove the forerunner to a nation-wide movement.

Bank President—"Why won't you leave a deposit with our bank?"

Man—"I will if you will make my cashier take off his hat."

## Quebec Dog Derby is Big Winter Event

ST LOUIS GATE, QUEBEC

February 20-22 will be the high light of the Quebec winter sports when the Eastern International Registered Derby will be run over a course of 120 miles, which will take three days to complete. World-famous drivers such as L. Sepalia, E. St. Godard, G. Chevette, and eleven others took part last year, among them being Paddy Nolan, the fifteen-year-old boy, who put up a sterling battle, but was only defeated by bad luck. Winner gets a purse of \$1,000 and custody for one year of the handsome gold cup. Last year the winner was St. Godard.

The season lasts three months, from the end of December, and there are winter sports galas, including skiing, ski-joring, tobogganing, bob-sledding, skating, snow-shoeing, curling, hockey and runs to places of interest in dog sleds. Masked balls, and outstanding events in the winter sports are further features of the season, and all are within easy reach of Montreal. The Chateau Frontenac, one of the finest hotels in America, is a colorful and romantic city and the quaint narrow streets are most delightful in winter when the picturesque buildings emerge from the mist and snow. The chateau and the city and the winter sports are a beautiful sight. The chateau and the city and the winter sports are a beautiful sight.

ST LOUIS GATE, QUEBEC

## EXPORT POTATO TRADE

"Spuds" Feature Largely In Canada's Export Vegetable

Trade

When Columbus sailed westward, it was not to discover a new world, but to look for spices—he saw wonderful potatoes in trade if he could find them. He found them in the Americas, and a short route to those eastern countries where the spices for which Europe yearned and fought were to be found. The spice trade in those days was of great importance. Now it is relatively unimportant and the trade in out-of-season non-perishable fruit and vegetables is of vastly greater value.

It is interesting to study trade statistics and see how Canada is faring in the twentieth century harter of fruits and vegetables. Canadians love delicious fare just as much as the gourmand of the fifteenth century, and, thanks to modern transportation and refrigeration a great variety of fruits and vegetables, either not grown in Canada or of which domestic supplies are not available throughout the year, are brought to our shores in increasing quantities. It is not surprising that Canada imports of fruits and also of vegetables are constantly rising. In the last fiscal year imports of fruit were valued at \$0.2 million dollars, an increase over four million dollars in ten years.

Oranges alone accounted for \$4 million dollars and were 2 million dollars higher than two years previously. Apples were valued at \$3 million dollars last fiscal year. The vegetable bill is rising too, being over a half million dollars higher than two years previously.

What of Canada's exports of fruit and vegetables? We pay our bill of luxury in fruit, it may be said, but we are admitted that we fall very far short with exports in the last fiscal year amounting to \$3 million dollars, compared with \$4 million in the previous year and \$7 million in the fiscal year ended March, 1925. Apples are the most important item in Canada's fruit exports and almost paid for the oranges in the fiscal year ended March, 1925. Exports of apples in that year amounted to \$3 million dollars and imports of oranges to \$4 million dollars. In 1927 however apple exports were only \$4 million while orange imports amounted to \$4 million.

It is gratifying to note, however, that the situation is entirely different in the vegetable line. Canada enjoys a wide and growing market for her vegetable products, says the Department of the Interior, through its Natural Resources Intelligence Service, which points out that exports of Canadian vegetables in 1926, for the two fiscal years, were over 12 million dollars, as compared with imports of only half that amount. The reason for this state of affairs is principally due to a very great increase in exports of potatoes. In the last fiscal year Canada exported more than 3.6 million bushels of "spuds" valued at \$7 million dollars. The previous year's exports were nearly as good at \$7.1 million, valued at \$2.3 million dollars.

Exports of the tubers have been steadily rising since 1923. Curiously enough, Canada is an importer as well as an exporter of "spuds," figuring as the second best customer of the United States, while the neighboring republic is Canada's best customer, followed by Cuba, which imports potatoes from both the United States and Canada. The potato trade is more or less seasonal. The United States ships potatoes to Canada in increasing volume from April to July, and to Cuba from July to September. When the Canadian crops get on the market, United States exports dwindle away and that country must draw heavily on Canada both for table stock and to an increasing extent for seed potatoes.

United States exports of potatoes in the five-year period, from 1922 to 1926, have averaged 2.7 million bushels. Canada's exports in the corresponding period have averaged 5.0 million bushels. United States exports have shown a decreasing trend while Canada's exports of spuds have been steadily increasing.

Saskatchewan Wool

More than 50,000 pounds of wool were shipped last year by Saskatchewan members of the Canadian Co-operative Wool Growers' Limited, according to W. W. Thompson, of Regina, manager for the Saskatchewan and Manitoba area. There were also 10,000 pounds of mohair, of good quality. The Saskatchewan farmers nested about \$100,000.

Boxing Instructor (after first lesson)—"Now, have you any questions to ask?"

Beginner (in a daze)—"Yes. How much is your correspondence course?"

Four men should be punished for they receive many hard blows.

## Wise Legislation

Canada Could Learn From Europe How To Maintain Her Forest Wealth

Products of our forests are not only the greatest basis of the industries of this country, but furnish the largest value of our exports.

Recently the Hon. J. A. A. Macdonald, Minister of Lands and Forests, only reiterated a note of alarm which has been sounded by all competent observers when he proclaimed that our forests are within measurable distance of exhaustion if the present rate of consumption goes on without greater care of the forests, and endeavor at replanting.

And the present rate of consumption is certain to increase in any case. But no need exists to let the forests disappear. In Germany, at least, and in a less degree in other European countries, wise legislation and care have maintained the forest wealth despite a great annual call upon it for industrial purposes.

This country can profit, if it will, from the experience of these other countries. It is not merely that a vast industrial wealth will disappear in Canada if the forests disappear, but that the vanishing of the forests must surely result in a disastrous loss and deterioration in climate. The case should be taken in hand drastically by our governments. Mr. Finlayson says that the Ontario Government is going to do its share. He promises drastic changes in the present Forestry Act, which regulates forest consumption. Public opinion ought to back up the Government in all such effort, no matter how drastic it may be.

## Canada's Seed Grading System

Recognition Given In Foreign Markets To Canadian Seeds

Commerce in seeds in Canada is conducted on a basis of legally defined grades, and the quality of seed sold must conform to prescribed grade definitions. This involves responsible dealing by the inspectors of the Dominion Seed Branch, Department of Agriculture, who grade all agricultural seed sold in Canada, and regulate forest and garden vegetable seeds required for domestic use and for export. According to the latest annual report of the inspectors of the Dominion Seed Branch, 32,637 control samples were examined and graded at laboratory points during the fiscal year 1925-26. The total quantity of seed represented by these samples amounted to several millions of bushels. That the system followed in this country is soon to be shown by the recognition given on foreign markets to Canadian seed offered under official seal and grade names.

## Have Observed Centenary

Omnibus Service In Paris Really Dates From 1672

Paris omnibuses celebrated their birthday January 30, 1925. They are all automobiles now but that will not interfere with the party.

Omnibuses really date from 1672 in Paris, the French philosopher, mathematician, and suggested applying the old stage coach or diligence service to cities and Paris had never tried it. The first service stopped in 1678. There was a 90-year interval before another attempt ended in failure.

In 1828 horse drawn buses again started. They prospered and multiplied and in 1850 were consolidated into a single system under municipal supervision.

Marjorie, Clonchatty, and Isarlene were all invited to Thompson's wedding.

Marjorie took a jar of goldfish. Clonchatty took a box of Gold Flake.

Isarlene took his friend, Goldberg.

"But, dear, you said you were going for very minute, and it's been almost an hour since you got on the bus."

"Well, I meant any minute within the next hour!"

"You are late."

"Yes. A man took his purse in from the theatre."

"That is no excuse."

"I did my best to get on the bus. I was late."

That is no excuse."

## TOWN COUNCIL MEETING

The initial meeting of the new town council was held on Monday evening. The recently councillors were duly sworn. Committees for the year were appointed as follows:

Finance—Councillors Watt, Wyatt and Arnestad.  
 Water—Maxwell, Hood and Watt.  
 Fire and Light—Arnestad, Morrow and Wyatt.  
 Public Works—Wyatt, Arnestad and Maxwell.  
 Town Property—Hood, Watt and Morrow.  
 Police, Health and Relief—Morrow, Maxwell and Hood.

The first named in each instance to be chairman of the committee.  
 A bylaw was passed providing for the borrowing from the Bank of Commerce up to \$30,000 for current expenditures of the town, and \$10,000 for school purposes.

## LAMBE-BUTTS

On Wednesday afternoon February 15, at the home of the bride's mother, Miss Veanna Butts and Reginald George Lambe were united in marriage. Father Hughes performing the ceremony in the presence of a few friends and immediate relatives. The bride was attended by her sister Miss Helen Butts, and the groom was supported by his brother, Norman Lambe.

Mr. and Mrs. Lambe will reside in the house north of the Anglican rectory.  
 Two showers were given in honor of the bride, one by Mrs. Lester Barr, and one by Mrs. J. J. Bell and Mrs. Jacob Schumacher, at which she was the recipient of many beautiful and useful gifts.

## CHURCHES

### UNITED CHURCH

We are anxious to announce that the services of public worship will be resumed again on Sunday. It is also the first Sunday in the Lenten period.

12:15—Sunday School.

Rev. R. W. Dalgleish.

### ST. JOHN'S THE EVANGELIST CHURCH OF ENGLAND

Services will be held on Sunday February 26th, as follows:

11 a.m.—Morning service.

12 o'clock—Sunday School and confirmation class.

7:30 p.m.—Evening service.

On Sunday evening I will commence a course of Lenten addresses upon the "Landmarks of the Christian Religion." The first one will be "Belief in God."

On Sunday morning I will speak upon "Sanctification." We invite you to come to these services. Let us begin our Lenten Festival in the House of God where we can receive grace and strength to live day by day our christian life.

On Thursday at 8 p.m. there will be a service held for adults when a Lenten address will be given. This will be an Evening service.

Rev. W. Barlow, L.Th.

### THE CHURCH OF THE NAZARENE

"I am the Almighty God; walk before me, and be thou perfect."—Bible.

10:30—Sunday School. P. A. Harding, Supt.

11:30 and 7:30—Preaching by the pastor.

Tuesday, 8 p.m.—Prayer meeting. Come to pray.

Friday, 8 p.m.—Bible study, and teacher training points. Bring your bible and a note book. Happy, spiritual, homelike services, which you will enjoy.

"Don't stay away because it snows. That would not keep you from your business."

This announcement is your written invitation to attend our services.

Rev. A. H. Eggleston, Pastor.

# The Welcome Sign

"Nobody asked you, sir," said the coy maiden. And in matters of buying, as well as in affairs of the heart, most people like to be "asked." Often, indeed, they insist on a proper invitation.

He is a wise merchant who keeps the welcome sign constantly before the community in the form of advertisements in The Review - Advertiser. There everybody sees it—for advertising is "the light of directed attention."

Speak up. Light up. Hundreds of good customers are listening for your message and watching for your welcome sign in The Review-Advertiser.

## People Shop Where They Feel Welcome

## Another PRICE Suggestion Maple Nut Cake and Chocolate Layer

THIS unusual, economical Maple Nut Cake will keep fresh for several days, and the Chocolate Layer Cake, made in a little different way with Dr. Price's Cream Baking Powder, is a family favorite too. Try one or both of them today!

(All measurements for all materials are level.)

### MAPLE NUT CAKE

1/2 cup shortening  
 1 cup light brown sugar  
 2 eggs  
 1/2 cup milk  
 1/4 cup maple  
 1/4 teaspoon salt  
 1 teaspoon Dr. Price's Cream Baking Powder  
 1 cup chopped nuts—preferably pecans  
 1 teaspoon vanilla extract

Cream shortening, add sugar slowly and yolk of egg and milk and beat well; add flour, salt and baking powder together and add chopped nuts; fold in beaten whites of eggs; add flavoring. Bake in well greased loaf pan in moderate oven 35 to 45 minutes. Cover top with maple icing and sprinkle with chopped nuts while still acid.

### MAPLE ICING

1/2 teaspoon butter  
 2 tablespoons milk

1 1/2 cups moderate-size sugar  
 1/2 teaspoon Dr. Price's Baking Powder  
 1/4 teaspoon maple flavoring

Add butter to hot milk; add sugar slowly to make paste of the right consistency to spread; add flavoring, and baking powder and spread on top and sides of cake.

### CHOCOLATE LAYER CAKE

1/2 cup shortening  
 1 cup sugar  
 1 egg  
 1/2 cup milk  
 1/4 cup flour  
 1/4 teaspoon salt  
 1 teaspoon Dr. Price's Cream Baking Powder  
 1/4 teaspoon vanilla extract

Cream shortening; add sugar gradually, beating well; add beaten egg, one-half the milk and mix well; add one-half the flour which has been sifted with salt and baking powder; add remainder of milk; then remainder of flour and flavoring; beat after each addition. Bake in greased layer cake tin in moderate oven 15 to 20 minutes. Put together with

### CHOCOLATE FILLING AND ICING

8 cups confectioner's sugar  
 1/2 cup boiling water  
 1 teaspoon vanilla extract  
 1/2 teaspoon cocoa and chocolate (2 squares)  
 1/4 teaspoon ground orange peel

To sugar add boiling water very slowly to make a smooth paste; add vanilla, melted chocolate and orange peel. Spread between layers and on top of cake.

**DR. PRICE'S**  
**CREAM**  
**Baking Powder**

Made from Cream of Tartar, derived from grapes. Raises the dough perfectly, giving the food fine texture and rich flavor.
